

# INSTALLATION INSTRUCTIONS

Item#4103, 4105-XXX

## READ AND SAVE THESE INSTRUCTIONS

**WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.**

**AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.**

1. Shut off power at the fuse box or circuit breaker box and remove the old fixture including the mounting hardware.

2. Carefully unpack your new fixture and lay out all the parts in a clean area. Take care not to misplace any small parts necessary for installation.

### ASSEMBLING THE FIXTURE (Fig.1)

3. Thread the fixture loop (K) onto the nipple (L) until snug.

4. Determine the desire hanging height to remove the excess chain link from chain (J). Attach the quick link (I) to one end link of chain (J) and attach the quick link (I) to the fixture loop (K). Note: The quick link (I) must be fully closed.

5. Thread the fixture wire and bare copper ground wire up through every other link in the chain (J) .

6. Install crossbar (A) with nipple (E), lock nut (D) and screw collar loop (G) to the junction box using two junction box screws (C). The side of crossbar (A) marked "GND" must face out. The length of nipple (E) into crossbar (A) maybe adjusted if necessary . Then tighten with lock nuts (D) provided.

7. Slip screw collar ring (H), follow up by canopy (F) and allow them to rest on fixture loop (K). Attach another quick link (I) to another end of chain (J). Fasten the end link of quick link(I) to the screw collar loop (G). Note: The quick link (I) must be fully closed. Insert the fixture wires to up through the nipple (E).

### CONNECTING THE WIRES (Fig. 2)

8. Connect electrical wires as shown in Fig.2, making sure that all wire connectors are secured. If your junction box has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the ground wire directly to the crossbar (A) using the green screw (B) provided.

9. Tuck wire connectors neatly into the junction box.

### COMPLETING THE INSTALLATION (Fig. 1)

10. Raise the canopy (F) to the ceiling and secure in place by screwing the screw collar ring (H) onto the screw collar loop (G).

11. Adjust the fixture arms(M) to their proper position.

12. Place the large glass shade (O), ring (P) and socket ring (Q) in this order over the socket (N). Then secure the socket ring (Q).Do not over tighten.

13. Install (3) three for 4103 or (5) five for 4105 base bulbs (S) up to 100 watts each or CFL or LED equivalent (not included) in accordance with the fixture specification.

**—DO NOT EXCEED THE MAXIMUM WATTAGE RATING! (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!)**

14. Install the small glass shade (R) onto the ring (P).

Your installation is now complete. Return power to the junction box and test the fixture.

**Note: Illustration (Fig. 1) on this manual is for installation purposes only. It may or may not be identical to the fixture purchased.**

**IMPORTANT: FIXTURE SHOULD BE INSTALLED BY A QUALIFIED ELECTRICIAN TO ENSURE PROPER WIRING AND INSTALLATION.**

Page: 1/2

Notice: It is important to use proper chain pliers (not included)

To OPEN and CLOSE the chain included with this fixture. Do not open them with other tools that may twist or stress the chain links. It is important to use proper chain pliers like the ones shown in the diagram.
