

INSTALLATION INSTRUCTIONS

Item#P1405-613 (New. 03/12/2015)

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

HANGING THE FIXTURE (Fig. 1)

1. Carefully remove the fixture from the carton and check that all parts are included as shown in the illustration.
2. Shut off power at the circuit breaker and remove the old fixture including the mounting hardware.
3. Determine the desired hanging height and thread rods (L) to fixture body (M). Carefully pass the wires through each rod during assembly. Secure swivels (G) onto rods (L).
4. Align canopy (H) followed by lock washer (F) and metal washer (E) onto swivels (G) and secure with hex nuts (D) via wrench (J) included.
5. Attach mounting plate (A) to the outlet box using mounting screws (B) (Size: #8-32N*L0.5"). The side of the mounting plate marked "GND" must face out.

CONNECTING THE WIRES (Fig. 2)

6. At this point, connect the electrical wires as shown in Fig. 2, making sure that all wire connectors are secured. If your outlet box has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the crossbar using the green screw provided. After wires are connected, tuck them carefully inside the junction box.

COMPLETING THE INSTALLATION (Fig. 1)

7. Align canopy (H) onto mounting plate (A) and secure with screws (C).
8. Install the light bulb(s) (not included) in accordance with the fixture's specifications. **(DO NOT EXCEED THE MAXIMUM WATTAGE RATING!) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!).**

Your installation is now complete. Return power to the junction box and test the fixture.

Note: Illustration (Fig. 1) on this manual is for installation purposes only. It may or may not be identical to the fixture purchased.

IMPORTANT: FIXTURE SHOULD BE INSTALLED BY A QUALIFIED ELECTRICIAN TO ENSURE PROPER WIRING AND INSTALLATION.
